INTRODUCTION

REVOLUTIONIZING THE TRAVEL INDUSTRY

The travel industry is one of the largest global markets, projected to exceed $9 trillion by 2025. Yet, it remains highly centralized, inefficient, and costly for the end consumer. Numerous intermediaries, hidden fees, and complex loyalty systems force travelers to overpay while forcing service providers to surrender a significant portion of their profits to aggregators.

The AviaCoin (US7) project aims to revolutionize this industry by creating the world's first decentralized ecosystem for travel booking. Leveraging blockchain technology and our native US7 token, we eliminate intermediaries, reduce costs, and return value directly to the hands of travelers and direct service providers.

Avia Wallet is more than just a crypto wallet. It is your single gateway to the world of decentralized travel, combining asset management, flight and hotel bookings, P2P payments, an NFT marketplace, and a next-generation loyalty program.

THE PROBLEM

INEFFICIENCIES OF THE TRADITIONAL MARKET

HIGH INTERMEDIARY COMMISSIONS

Aggregators (Booking.com, Expedia, Skyscanner) and GDS systems charge commissions of 15-30% on booking values to hotels and airlines.

DIFFICULTY OF DIRECT BOOKINGS

It is inconvenient for consumers to compare prices and book directly across hundreds of airlines and hotels.

UNFAIR LOYALTY PROGRAMS

Miles and points are often devalued, difficult to use, and their real value is opaque.

SLOW AND EXPENSIVE CROSS-BORDER PAYMENTS

A significant hurdle for travel agents and service providers.

LACK OF TRUST AND TRANSPARENCY

Hidden fees, complex refund policies, and a lack of genuine reviews.

FRAGMENTED FINANCIAL SERVICES

Users are forced to use separate apps for wallets, trading, travel, and art.

THE SOLUTION

THE AVIACOIN ECOSYSTEM

We are building a decentralized platform (DApp) that directly connects travelers (C-side) with service providers (B-side: hotels, airlines, tour operators).

DIRECT BOOKING

Service providers can accept bookings directly, saving on aggregator commissions.

TRUST SYSTEM

Booking reviews are recorded on the blockchain and are immutable, ensuring honest reputation.

ALL-IN-ONE

Users are forced to use separate apps for wallets, trading, travel, and art.

INSTANT PAYMENTS

Blockchain enables instant settlements between parties worldwide with minimal fees.

LOWER PRICES FOR END USERS

Savings on commissions allow for more competitive pricing.

UNIFIED LOYALTY PROGRAM

The US7 token becomes a universal reward currency that is easy to accumulate, spend, and trade.

Avia Wallet is the heart of this ecosystem, providing a simple and familiar interface for complex blockchain operations.

US7

AVIACOIN TOKEN OVERVIEW

US7

TICKER

1,000,000,000 US7

TOTAL SUPPLY

UTILITY TOKEN

TYPE

DEFLATIONARY

SOLANA

BLOCKCHAIN

SPL TOKEN STANDARD

TOKEN PURPOSE

Internal medium of exchange for rewards, staking, and governance within the Avia ecosystem.

KEY ADVANTAGES OF SOLANA

ULTRA-LOW FEES

Fractions of a cent per transaction, ideal for micro-payments and cashback.

HIGH SPEED

Thousands of transactions per second ensure instant booking confirmations and payouts.

SCALABILITY

The Solana network is built for mass adoption and millions of ecosystem users.

ECOSYSTEM

Wide integration with leading DEXs, wallets (Phantom, etc.), and NFT marketplaces.

INITIAL DISTRIBUTION

LIQUIDITY (DEX & CEX)

30% (300,000,000 US7)

01

DEVELOPMENT AND TEAM

7.5% (75,000,000 US7)

02

MARKETING

7.5% (75,000,000 US7)

03

ECOSYSTEM RESERVE

40% (400,000,000 US7)

04

STRATEGIC PARTNERS AND ADVISORS

10% (100,000,000 US7)

05

FUTURE DEVELOPMENT AND DAO

5% (50,000,000 US7)

06

TOKEN BURN

DEFLATIONARY MECHANISM

To support the long-term value of the US7 token, a constant burning mechanism is implemented

REVENUE SHARE BURN

A fixed percentage of fees generated by the ecosystem from bookings and marketplace operations is used to regularly buy back and burn US7 tokens from the open market.

STAKING SLASHING BURN

A portion of the penalties (slashing) for early unstaking is burned.

TRANSPARENCY

All burn transactions are published and verified on the Solana blockchain.

ECOSYSTEM PRODUCTS

AVIA WALLET

A multi-chain wallet with booking functionality, P2P transfers, an NFT marketplace, and staking.

AVIA CARD

A crypto-debit card (virtual & physical) for global spending, converting US7 to fiat at the point of sale.

AVIA DAO

A decentralized autonomous organization for ecosystem governance powered by US7 token holder voting.

AVIA BOOKING ENGINE

A decentralized aggregator connected directly to airline APIs and Hotel PMS systems. Accepts payments in fiat and US7.

AVIA PARTNER NETWORK

White-label solutions for hotels and airlines to launch their own US7-based loyalty programs.

AVIA LOYALTY & STAKING HUB

A platform for staking US7 and earning cashback. Higher staking amounts and durations unlock superior loyalty tiers and benefits.

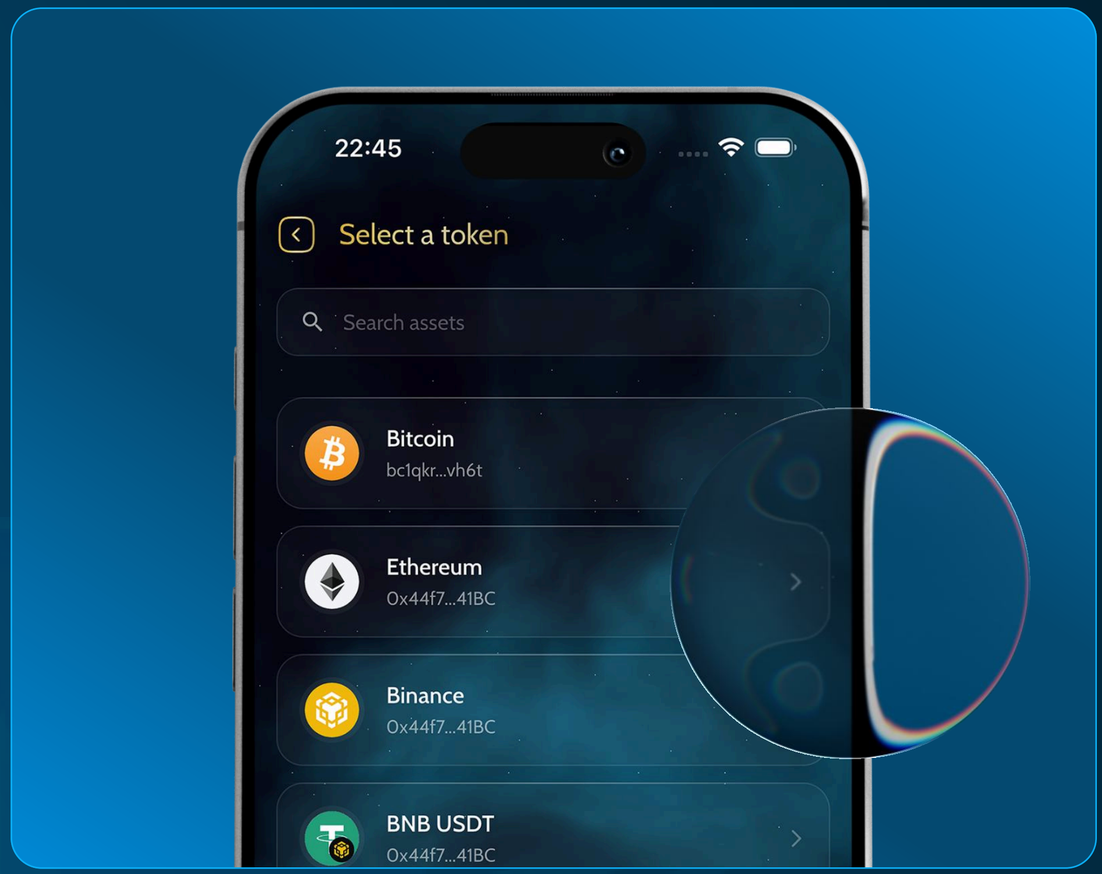

AVIA ART MARKETPLACE

An internal platform for buying, selling, listing, and minting digital art (NFTs) and tokenized real-world art (RWA) for US7 and other cryptocurrencies

AVIA WALLET FUNCTIONALITY

YOUR UNIVERSAL FINANCIAL HUB

The Avia Wallet is designed as a comprehensive solution that goes far beyond simple crypto storage. It is your single entry point into the world of Web3, travel, and digital assets.

1

SECURE MULTI-CHAIN STORAGE

Support for tokens on Solana (SPL), Ethereum (ERC-20), Binance Smart Chain (BEP-20), and other networks.

Storage of NFTs from supported networks (Solana, Ethereum, Polygon) in a dedicated gallery view.

Advanced key management: Social Recovery and Multi-Party Computation (MPC) options for enhanced security without the need to store seed phrases.

2

CONVENIENT PAYMENTS & TRANSFERS

QR Code Payments: Instant top-ups and payments by scanning a QR code. Generate your own QR code to receive funds.

P2P (Peer-to-Peer) Transfers: Send funds instantly to any user via their username, phone number, or email address with zero internal fees (on-chain gas fees still apply).

Multi-Currency Accounts: Create wallets for fiat currencies (USD, EUR, etc.) for internal ecosystem operations.

3

AVIA CRYPTO-DEBIT CARD

Virtual & Physical Card: Instant issuance of a virtual card for online payments; order a physical card for global spending.

Top-Up with Crypto: Automatic conversion of US7 and other major cryptocurrencies to fiat at the moment of transaction.

Cashback in US7: Up to 5% cashback on all card purchases settled in fiat.

4

BUILT-IN NFT MARKETPLACE

Buy & Sell: Browse, buy, and list NFTs directly from the wallet interface. Support for collections across different chains.

Minting: A user-friendly tool to create (mint) your own NFTs (digital art, tokenized tickets, travel souvenirs) without deep technical knowledge.

Avia Art Marketplace: A specialized section for trading digital and tokenized physical art pieces.

5

STAKING & EARNINGS

US7 Staking: Lock tokens to earn regular rewards and elevate your loyalty status.

DeFi Access: A built-in aggregator allows participation in staking, liquidity provision, and other yield-bearing strategies on leading DeFi protocols directly from the app.

6

TRAVEL BOOKING (INTEGRATED SERVICE)

Search & Book: Search for hotels and flights from direct providers and partners.

Pay with Any Asset: Pay for bookings with crypto (at a discount), fiat via card, or from your wallet balance.

Travel Cashback: Enhanced cashback in US7 for all bookings made through the app.

7

SECURITY FIRST

Biometric Authentication: Face ID / Touch ID for login and transaction confirmation.

Two-Factor Authentication (2FA): Add an extra layer of security to your account.

Hardware Wallet Integration: Support for leading hardware wallets (Ledger, Trezor) for cold storage of large sums.

Access Control: Manage permissions for connected dApps.

US7 TOKEN UTILITY & USE CASES

The US7 token is the foundation of the ecosystem's economy

BOOKING PAYMENTS

Receive up to a 10% discount when paying for flights and hotels with US7.

CASHBACK

Earn up to 7% back on booking value and up to 5% on card spending, paid in US7.

STAKING

Earn passive income in US7 by locking your tokens. Staking also grants access to exclusive offers (early access to sales, secret destinations, premium art drops).

ART INVESTMENTS

The US7 token is the primary currency for purchasing unique assets on the internal art marketplace.

PARTNER PROGRAMS

Hotels and airlines use US7 to incentivize their customers.

GOVERNANCE (DAO)

Token holders participate in ecosystem governance: vote on new airline routes, hotel partnerships, or development directions.

MARKETING STRATEGY

B2B (SERVICE PROVIDERS)

Direct sales and partnerships with small and medium-sized chain hotels and low-cost airlines interested in reducing commissions and attracting a new audience.

ART COMMUNITY STRATEGY

Partnerships with digital artists, galleries, and auction houses to promote the NFT marketplace.

B2C (TRAVELERS)

- Partnerships with crypto and travel influencers.
- A referral program rewarding users in US7.
- Participation in major travel exhibitions (ITB, WTM).
- Targeted advertising on social media aimed at audiences interested in crypto, travel, and art.

2024-2027

ROADMAP

Q2 2024

FOUNDATION LAUNCH

15

MVP AVIA WALLET LAUNCH ON SOLANA

Core features: store, send, receive US7 & major SPL tokens, QR codes.

PRIVATE SALE ROUND

INITIAL PARTNERSHIPS WITH HOTELS

ROADMAP

Q3-Q4 2024

ECOSYSTEM GROWTH

16

INTEGRATION OF THE HOTEL BOOKING MODULE INTO AVIA WALLET

PUBLIC TOKEN SALE (IDO/IEO)

LIST US7 ON LEADING SOLANA DEXS (ORCA, RAYDIUM)

LAUNCH OF P2P TRANSFERS BETWEEN USERS

ANNOUNCEMENT AND DEVELOPMENT OF STAKING MODULE AND CRYPTO CARD

INITIAL PARTNERSHIPS WITH GALLERIES AND ARTISTS FOR THE MARKETPLACE

ROADMAP

Q1-Q2 2025

FEATURE EXPANSION

17

LAUNCH OF US7 STAKING WITH LOYALTY PROGRAM

FULL INTEGRATION OF FLIGHT BOOKING

BETA LAUNCH OF AVIA ART MARKETPLACE
(digital NFT art) with minting functionality

RELEASE OF THE VIRTUAL AVIA CARD

LIST US7 ON FIRST-TIER CENTRALIZED EXCHANGES

EXPAND PARTNER GEOGRAPHY

ROADMAP

Q4 2025

STABILIZATION AND EXPANSION

18

COMPLETION OF MULTI-CHAIN INTEGRATION (SOLANA, ETHEREUM, BSC)

01

LAUNCH OF AVIA WALLET V2.0 (IOS / ANDROID) WITH FULL INTEGRATION OF BOOKINGS, NFTS, AND STAKING

02

MASS ISSUANCE OF PHYSICAL AVIA CARDS WITH APPLE PAY AND GOOGLE PAY SUPPORT

03

FULL LAUNCH OF THE AVIA ART MARKETPLACE WITH RWA TOKENIZATION OF PHYSICAL ART OBJECTS

04

ACTIVATION OF THE AUTOMATIC BURN MECHANISM VIA DAO TRANSACTIONS

05

NEW PARTNERSHIPS WITH HOTEL CHAINS AND LOW-COST AIRLINES ACROSS EUROPE AND THE MIDDLE EAST.

06

ROADMAP

Q1–Q2 2026

TRANSITION TO DECENTRALIZATION

19

LAUNCH OF AVIA DAO V1.0, TRANSFERRING PART OF GOVERNANCE TO US7 HOLDERS

DAO VOTING FOR NEW DESTINATIONS, CASHBACK TIERS, AND INTEGRATIONS

LAUNCH OF THE AVIA PARTNER SDK — A WHITE-LABEL SOLUTION FOR TOUR OPERATORS AND AIRLINES

GEOGRAPHIC EXPANSION TO ASIA (JAPAN, SINGAPORE, UAE) AND NORTH AMERICA

INTRODUCTION OF STAKING 2.0 WITH FLEXIBLE TERMS AND HIGHER APR FOR DAO PARTICIPANTS

INTEGRATION OF AN AI CHAT ASSISTANT FOR BOOKINGS AND WALLET ASSISTANCE

ROADMAP

Q3–Q4 2026

MASS ADOPTION

- Integration of the Avia Wallet API with OTA platforms and cryptocurrency exchanges.
- Launch of corporate accounts (B2B Travel Desk) with US7 payments.
- Implementation of NFT tickets and RWA certificates in partnership with airlines.
- Support for over 10 languages and launch of localized DAO communities.
- US7 listings on additional top-10 centralized exchanges (CEX).
- Deployment of KYC-lite and AML modules based on zero-knowledge (zk) technology.

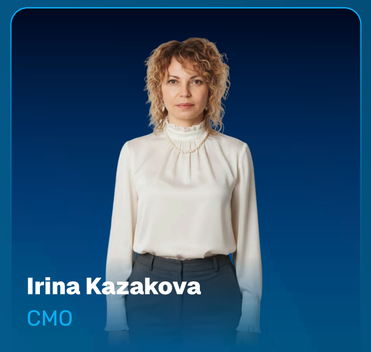

2027

WEB3 TRAVEL & ART ECOSYSTEM HUB

- Creation of the Avia Treasury Fund, a decentralized fund supporting startups in Web3 travel and digital art.
- Integration with global blockchain-based tour operators and airlines.
- Launch of the Avia Travel Metaverse Beta — virtual NFT tours and booking tokenization.
- Introduction of the US7-S stablecoin for settlements with suppliers.
- DAO reform leading to full decentralized governance of Avia Wallet and Marketplace.
- Goal: over 1 million active users and more than 10,000 partners worldwide.
